- **Test for proper water chemistry and balance if necessary (balance chemicals included except salt)**
- **Add algaecide, stain controller and non-chlorine shock. ALL chemicals included**
- **Blow out lines and install customer's plugs**
- **Add and provide antifreeze to skimmer**
- **Remove handrails and ladders**
- **Install cover (\$175 additional charge for Foxx or Water Bag Covers)**
- **Inspect and notify customer of any problems**
- **De-Activate and deep clean filter system (DE and Cartridge Filter). Backwash and Sand Scrub Sand Filter**
- **Winterize all pumps and equipment**

## BASIC POOL CLOSING - \$200.00

- **Chemicals added by customer prior to service technician arrival**
- **Blow out lines and install customer's plugs**
- **Remove deck equipment (Diving board by request only)**
- **Install cover (\$175 additional charge for Foxx or Water Bag Covers)**
- **Inspect equipment and notify customer of any problems**
- **Winterize all pumps and equipment**

Pool Vacuuming, Filter Cleaning, and Chemicals are not included in basic package

## Important Notes

- Please refer to the Closing Agreement for complete details. This Agreement will be emailed/mailed/faxed to customer when initial date is tentatively set. Upon receipt of signed contract and payment, the date will be confirmed.
- Closings must be **secured with a credit card** on file and **will be charged** upon completion of closing. No invoicing for Fall 2017 Specials.
- There will be a \$12 fee for replacement of cover anchors (\$6 for screw part) that need replacement or must be cut out due to rust. Must be done if needed for safety cover.
- Please have plugs, gizmos, cover and cover pumps (with extension cords and water hoses) out on scheduled day. Broken or missing items will be replaced (or not left out) and billed as required by technician.
- Leaves and debris **must** be removed from your pool. **Pool vacuuming is not included in basic closing.**
- Please let us know in advance if you wish for your pool to be vacuumed, as time must be allocated to the technician for this task. Vacuuming is charged at \$90 for first half hour and \$45 for each additional half hour.
- Any additional work required will be extra. All work needs to be scheduled and **secured with a credit card.**
- **Salt cell cleaning is available at \$25. This needs to be requested when scheduling closing.**
- **Paradise Aquatics has a policy of leaving the water level of pool at operational level instead of draining as in years past. This will save money on water and chemicals in the spring as well as protect the liner from possible floating during heavy periods of rain.**

## MID-WINTER MAINTENANCE - \$110.00

**Three months after pool is closed, we will come back to do the following:**

- **Pull cover partially back**
- **Add algaecide, stain controller and non-chlorine shock**
- **Replace cover**

(Chemicals are included with this package)
